BUSINESS

Patrons of Pacific Surety Company Protected By Reinsurance.

BIG MARYLAND COMPANY MAKES ARRANGEMENTS

Arrangements have been completed whereby the Bishop Insurance Agency, for the Fidelity and Deposit Company of Maryland, will take over all the bonding insurance business done in the Territory by the Pacific Surety Com-pany of San Francisco. The arrangement is already in effect and the Bishop agency is now reinsuring the bonds issued here by the California concern.

The financial difficulties and the pas record here of the Pacific Surety Comin the past few weeks, together with the fact that the Hawaiian Trust Com-

appears that the arrangement between the Maryland company and the California company was effected in San Francisco, as Arthur Berg, president and manager of the Bishop Insurance agency, received the news by mail that the Fidelity and Deposit Company will take over the bonding business of the Pacific Surety Company. The arrangenents were made effective from August 1.

The Maryland company, which has its headquarters in Baltimore, is one \$4,773,594.21, according to the report of ket.

The strength of the company taken as evidence that with the Pacific Surety Company's bonding business here reinsured, patrons of the latter company are amply protected.

The other business of the surety ompany has not been arranged for, so was the principal item here.

BIDS ON KAUAI

Loan Commission Must Extend Time For Calling In Tenders.

Changes of various kinds in the plans and specifications for two cost-ly bridges on Kaual, one a steel and the other a four-span reinforced concrete structure, have necessitated a postponement of the date for calling in tenders for the work. The Kauni Loan Fund Commission has been advertising that bids must be in by Sep mber 6, but a howl has been raised by contractors of the Territory tha they were not being given enough Superintendent Marston Campbell said today that the time will be extended

It was only last Sunday that the plans and specifications arrived from Kausi so that local contractors could have a basis on which to make their bids. Several of them say they have been unable to see the specifications Superintendent Campbell explains the be sent back and forth between the ings in great quantities.
